A good old age in NRW

Culturally sensitive assistance
and care for the elderly

ein Projekt gefördert durch das

Ministerium für Kinder, Familie,
Flüchtlinge und Integration
des Landes Nordrhein-Westfalen

„Guter Lebensabend NRW – Kultursensible Altenhilfe und Altenpflege“

With this project, the North Rhine-Westphalian state government pursues the aim of acknowledging the lifetime achievement of senior citizens with a migration history background.

Together with 19 other model municipalities Wesel thus has the possibility until the end of 2022 with scientific accompaniment to design and try new access routes to the existing standard offers in the field of assistance and care for the elderly in Wesel.

Owing to special life and working biographies, senior citizens with a migration history often have a specific need for help. The project would like to determine these special requirements in the local environment and to contribute to develop custom-fit offers.

The use of the standard services in the field of care for the elderly should be made possible for senior citizens with a migration history background and their family members to the same extent as the senior citizens of the majority of society.

Goals in the project:

- to provide comprehensive information in native languages context regarding services for care in the German health and social programs
- to recognise and reduce access barriers
- to recruit and train voluntary native language speaking care guides
- custom-fit advice structures for senior citizens with a migrant background in Wesel
- to coordinate the creation of a network of immigrant organizations and service providers.
- to promote a more sensitive approach in transcultural interactions
